

Studio Objectives

- To create a personable environment for the versatile dancer
- A family oriented dance studio with the focus to get to know the studio community
- For the parent/volunteer committee to get to share, have an input, learn more about the studio, address concerns, and help your child's studio to grow from great to greater
- A studio welcoming to all types of dancers and body types
- Create and achieve a professional standard of technical expertise in dance in all levels from preschool to the higher grades which is to enable any student to pursue an application to an art school or dance program in the future. The reason behind completing the RAD exams is to set firm goals for the dancers.
- Foster a love and passion for dance and music
- Our hope is for our students to develop strong friendships
- Provide an opportunity for older students to volunteer, mentor and to learn how to teach dance (ie. to develop job skills)

Give the Gift of Dance!
